Italian Children’s Literature and National Identity Stanford University Press

Runner Up Winner of the Edinburgh Gadda Prize - Established Scholars, Cultural Studies Category Winner of the American Association for Italian Studies Book Prize (20th & 21st Centuries) Honorable Mention for the Howard R. Marraro Prize By linking Italy’s long history of emigration to all continents in the world, contemporary transnational migrations directed toward it, as well as the country’s colonial legacies, Fiore’s book poses Italy as a unique laboratory to rethink national belonging at large in our era of massive demographic mobility. Through an interdisciplinary cultural approach, the book finds traces of globalization in a past that may hold interesting lessons about inclusiveness for the present. Fiore rethinks Italy’s formation and development on a transnational map through cultural analysis of travel, living, and work spaces as depicted in literary, filmic, and musical texts. By demonstrating how immigration in Italy today is preoccupied by its past emigration and colonialism, the book stresses commonalities and dispels preoccupations.

Sull’Oceano, uscito nel 1889, ebbe un notevole successo raggiungendo la 25a edizione nel 1906. Il libro racconta la navigazione, intrapresa dall’autore nel 1884 su sollecitazione dell’editore Treves, a bordo del piroscifo Nord America, sulla rotta Genova-Montevideo. Insieme allo scrittore erano imbarcati 1800 emigranti, provenienti da quasi tutte le regioni italiane che si recavano in America latina nella speranza di trovarvi condizioni di vita migliori di quelle offerte dalla povera Italia di allora. Con Sull’Oceano De Amicis offre non solo una eccellente e ancor oggi coinvolgente documentazione sull’emigrazione italiana, ma un’opera narrativa tra le sue più equilibrate e mature: priva dei toni pedantemente didascalici o insistentemente patetici di tante sue opere precedenti e vivacizzata invece da un’acuta ed equilibrata sensibilità nell’osservare e ritrarre un campione di umanità in quella irripetibile sospensione della normale quotidianità rappresentata da un lungo viaggio sull’Oceano. Lo scrittore si è ormai lasciato alle spalle alle spalle l’impegno edificante e celebrativo per avviare quella fase finale della sua attività letteraria caratterizzata da una sempre più decisa denuncia dei problemi sociali. Sull’Oceano rappresenta una delle opere più riuscite del De Amicis: la nostra edizione, accanto a questo vero e proprio «romanzo sociale», propone - come una sorta di controcanto - il racconto Dagli Appennini alle Ande, uno dei più celebri fra quelli contenuti in Cuore: offrendo così modo al lettore di confrontare due momenti diversamente rappresentativi della scrittura di De Amicis e della sua sensibilità verso i problemi della società italiana.

The Complete Index to Literary Sources in Film University of Toronto Press

Uno degli obiettivi di questo libro consiste in una sorta di sfida al senso comune nella narrazione della grande emigrazione che attraversò l’Atlantico per molti decenni tra l’Ottocento e il Novecento. Dalle ricerche che compongono il volume emerge uno scenario molteplice e sorprendente, irriducibile a immagini stereotipate e rappresentazioni uniformi. Il principale filo conduttore si fonda sulla individuazione di una regione migratoria meridionale, peculiare per la sua precocità e per le sue caratteristiche sociali e culturali, posta al confine tra la Campania, la Basilicata e la Calabria. Da essa si sono diramate catene migratorie dirette il più delle volte verso mete inconsuete come la Colombia e il Centroamerica, il nordest del Brasile e l’Amazzonia. In queste “altre Americhe”, fino alle regioni transandine dell’Ecuador e del Perù, si sono dipanate vicende migratorie di straordinario interesse sociale e culturale. Le traiettorie migratorie, le storie collettive e le biografie individuali hanno disegnato, nei percorsi di integrazione, la sociabilità dei migranti, il ruolo precipuo svolto molto spesso dalla massoneria e talora dal protestantesimo. L’intraprendenza di questi migranti, i loro successi, le loro difficoltà e le loro sconfitte, hanno dato vita a vicende spesso mobili e complicate e talora a percorsi circolari. Infine, molti artisti - pittori, scultori, architetti, musicisti - assieme a studiosi e scrittori, mostrano in queste “altre Americhe” quanta importanza abbia avuto la cultura italiana nella costruzione della modernità dell’occidente latinoamericano.

[Entangled Inequalities in Transnational Care Chains](#) Easyoriginal Verlag

Vital Subjects examines cultural production—literature, sociology and public health discourse, and early film—from the years between Unification and the end of the First World War (ca. 1860 and 1920) in order to explore how race and colonialism were integral to modern Italian national culture, rather than a marginal afterthought or a Fascist aberration.

Sull’oceano - e in Appendice: DAGLI APPENNINI ALLE ANDE Frank & Timme GmbH

This bibliography lists English-language translations of twentieth-century Italian literature published chiefly in book form between 1929 and 1997, encompassing fiction, poetry, plays, screenplays, librettos, journals and diaries, and correspondence.

Based on a multi-sited ethnographic case study on transnational care chains between Milan (Italy) and Lima, Huancayo, and Cuzco (Peru), the book explores how social inequalities are reproduced through the care practices that follow the introduction of Peruvian migrants into home-based elderly care. Anna Katharina Skornia adopts an innovative approach in combining research on transnational care and migration with a perspective on entangled inequalities. In particular, the study sheds light on the role of state regulations in contributing to these inequalities as well as their ambiguous implications from the perspectives of both caregivers and receivers.

A continuation of 1994’s groundbreaking Cartoons, Giannalberto Bendazzi’s Animation: A World History is the largest, deepest, most comprehensive text of its kind, based on the idea that animation is an art form that deserves its own place in scholarship. Bendazzi delves beyond just Disney, offering readers glimpses into the animation of Russia, Africa, Latin America, and other often-neglected areas and introducing over fifty previously undiscovered artists. Full of first-hand, never before investigated, and elsewhere unavailable information, Animation: A World History encompasses the history of animation production on every continent over the span of three centuries. Volume III catches you up to speed on the state of animation from 1991 to present. Although characterized by such trends as economic globalization, the expansion of television series, emerging markets in countries like China and India, and the consolidation of elitist auteur animation, the story of contemporary animation is still open to interpretation. With an abundance of first-hand research and topics ranging from Nickelodeon and Pixar to modern Estonian animation, this book is the most complete record of modern animation on the market and is essential reading for all serious students of animation history. Key Features Over 200 high quality head shots and film stills to add visual reference to your research Detailed information on hundreds of never-before researched animators and films Coverage of animation from more than 90 countries and every major region of the world Chronological and geographical organization for quick access to the information you’re looking for

Dagli Appennini alle Ande FrancoAngeli

Comment les littératures du monde entier ont elles, chacune à sa façon ou s’inspirant mutuellement, vécu, assumé, rejeté les modèles culturels, artistiques et linguistiques, que de force ou de gré elles ont été amenées à accueillir au long des siècles? Comment les traductions, vecteurs premiers des relations interlittéraires, ont elles joué de leurs immenses ressources pour dissimuler, encourager ou décourager la constante et périlleuse mise en cause des traditions nationales?Les quatorze contributions de ce volume nous offrent un éventail de réponses à ces deux questions. De la France au Japon, de la Chine aux Etats-Unis, du Brésil à la Pologne, nous voyons se déployer les multiples stratégies médiatrices de la traduction, toutes révélatrices des tensions qui traversent les cultures où elle prend naissance, que ces tensions soient de nature culturelle, langagière ou littéraire.Ni simples transferts linguistiques, ni fenêtres transparentes sur l’Ailleurs, ni discours désincarnés sur l’Autre, les traductions relèvent plus exactement d’un processus complexe de communication, auquel prennent également part tant les traducteurs que leurs lecteurs: vivant et agissant au coeur des littératures adoptives, ils en investissent aussi bien les grands genres que la paralittérature, ils en infléchissent, souvent de concert, les valeurs et les modes d’écriture, et en démontent, pour mieux les exhiber, les rouages intimes.

Dagli Appennini alle Ande Fordham Univ Press

On an April evening in Florence in 1934, before twenty thousand spectators, the mass spectacle 18BL was presented, involving two thousand amateur actors, an air squadron, one infantry and cavalry brigade, fifty trucks, four field and machine gun batteries, ten field-radio stations, and six photoelectric units. However titantic its scale, 18BL’s ambitions were even greater: to institute a revolutionary fascist theater of the future, a modern theatre of and for the masses that would end the crisis of the bourgeois theatre. This is the complete story of the event, a colossal failure to critics and spectators alike, which the fascist government took pains to expunge from the annals of the regime. The detailed reconstruction of these various aspects of 18BL serves as a springboard for a larger inquiry into the place of media, technology, and machinery in the fascist imagination, particularly in its links to fascist models of narrative, historiography, spectacle, and subjectivity.

In 1986, Mayumi left Japan with a bicycle to flee from constrains of life as a Japanese girl. Without a plan nor travelling experiences, she kept pedalling around the globe - during the final epoch of the Cold War - for about 35,000 kilometres, facing various kinds of difficulties and taking advantage of people’s goodwill. This is the travel story of about the first half of her drifting passage, from Japan up to the last stop in South America - Brazil - in which there are clues to interpret the enigma of Japan and Japanese as well as a cross section of Latin America in the Cold War era. [Twentieth-century Italian Literature in English Translation](#) Liverpool University Press

This book bridges the fields of Children’s Literature and Italian Studies by examining how turn-of-the-century children’s books forged a unified national identity for the new Italian State. Through contextualized close readings of a wide range of texts, Truglio shows how the 19th-century concept of recapitulation, which held that ontogeny (the individual’s development) repeats phylogeny (the evolution of the species), underlies the

strategies of this corpus. Italian fairy tales, novels, poems, and short stories imply that the personal development of the child corresponds to and hence naturalizes the modernizing development of the nation. In the context of Italy's uneven and ambivalent modernization, these narrative trajectories are enabled by a developmental melancholia. Using a psychoanalytic lens, and in dialogue with recent Anglophone Children's Literature criticism, this study proposes that national identity was constructed via a process of renouncing and incorporating paternal and maternal figures, rendered as compulsory steps into maturity and modernity. With chapters on the heroic figure of Garibaldi, the Orientalized depiction of the South, and the role of girls in formation narratives, this book discloses how melancholic itineraries produced gendered national subjects. This study engages both well-known Italian texts, such as Collodi's *The Adventures of Pinocchio* and De Amicis' *Heart*, and books that have fallen into obscurity by authors such as Baccini, Treves, Gianelli, and Nuccio. Its approach and corpus shed light on questions being examined by Italianists, Children's Literature scholars, and social and cultural historians with an interest in national identity formation.

[Science in the Kitchen and the Art of Eating Well](#) BRILL

This book reveals how school memories offer not only a tool for accessing the school of the past, but also a key to understanding what people today know (or think they know) about the school of the past. It describes, in fact, how historians' work does not purely and simply consist in exploring school as it really was, but also in the complex process of defining the memory of school as one developed and revisited over time at both the individual and collective level. Further, it investigates the extent to which what people "know" reflects the reality or is in fact a product of stereotypes that are deeply rooted in common perceptions and thus exceedingly difficult to do away with. The book includes fifteen peer-reviewed contributions that were presented and discussed during the International Symposium "School Memories. New Trends in Historical Research into Education: Heuristic Perspectives and Methodological Issues" (Seville, 22-23 September, 2015).

L'Officina del poeta Youcanprint

The Cultures of Italian Migration allows the adjective 'Italian' to qualify people's movements along diverse trajectories and temporal dimensions. Discussions on migrations to and from Italy meet in that discursive space where critical concepts like 'home,' 'identity,' 'subjectivity,' and 'otherness' eschew stereotyping. This volume demonstrates that interpretations of old migrations are necessary in order to talk about contemporary Italy. New migrations trace new non linear paths in the definition of a multicultural Italy whose roots are unmistakably present throughout the centuries. Some of these essays concentrate on topics that are historically long-term, such as emigration from Italy to the Americas and southern Pacific Ocean. Others focus on the more contemporary phenomena of immigration to Italy from other parts of the world, including Africa. This collection ultimately offers an invitation to seek out new and different modes of analyzing the migratory act.

Civiltà Villanoviana ed Etrusca CRC Press

Italian cinema is now regarded as one of the great cinemas of the world. Historically, however, its fortunes have varied. Following a brief moment of glory in the early silent era, Italian cinema appeared to descend almost into irrelevance in the early 1920s. A strong revival of the industry which gathered pace during the 1930s was abruptly truncated by the advent of World War II. The end of the war, however, initiated a renewal as films such as *Roma città aperta* (Rome Open City), *Sciuscià* (Shoeshine, 1946), and *Ladri di biciclette* (Bicycle Thieves, 1948), flagbearers of what soon came to be known as Neorealism, attracted unprecedented international acclaim and a reputation that only continued to grow in the following years as Italian

films were feted worldwide. Ironically, they were celebrated nowhere more than in the United States, where Italian films consistently garnered the lion's share of the Oscars, with Lina Wertmüller becoming the first woman to ever be nominated for the Best Director award. This second edition of *Historical Dictionary of Italian Cinema* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on major movements, directors, actors, actresses, film genres, producers, industry organizations and key films. This book is an excellent resource for students, researchers, and anyone wanting to know more about Italian Cinema.

[Dagli Appennini alle Ande, al Caribe e all'Amazzonia](#) Fairleigh Dickinson

Il volume intende contribuire ad una riscoperta delle opere di Edmondo De Amicis al di là di tutti i possibili (pre-)giudizi su *Cuore*. L'indagine prende il via da un testo poco noto, di cui si offre per la prima volta anche una versione commentata. Si tratta de *La mia officina* (1902), con cui De Amicis fornisce un'ulteriore prova del suo spiccato talento bozzettistico e descrittivo-evocativo. I successivi capitoli indagano, invece, altre opere deamicisiane, a cominciare da *Cuore*, a cui vengono dedicate tre diverse letture che analizzano il romanzo dal punto di vista della struttura, dei 'tempi' interni e della sociogenetica. La parte finale del volume è quindi dedicata al De Amicis odeporico (con analisi di Spagna e dei testi 'alpini') e a quello 'scolastico' e ironico di *Amore e ginnastica*.

[Vital Subjects](#) transcript Verlag

Italian cinema is internationally well-known for the ground-breaking experience of Neo-Realism, comedy "Italian-Style," Spaghetti Westerns, and the horror movies of the seventies. However, what is rather unfamiliar to wider audiences is Italian cinema's crucial and enduring affair with literature. In fact, since the very beginning, literature has deeply influenced how Italian cinema has defined itself and grown. This book provides an empirical approach to this complex and fruitful relationship. The aim is to present discussions dealing with significant Italian film adaptations from literary materials which greatly exemplify the variety of styles, view-points, and attitudes produced by such an alliance, throughout the different periods. Among the adaptations discussed, are those that have followed trends and critical debates, making them, at times, rather problematic.

[Historical Dictionary of Italian Cinema](#) McFarland Publishing

Italy is more strongly influenced by the experiences of migrants than many other European countries. This includes an historically ongoing internal migration from the south to the north, which is strongly echoed in neo-realism; a mass emigration mainly to western Europe and North and South America that is connected with mafia films, among others, in Italy's collective imaginary; as well as a more recent immigration influx from the southwestern Mediterranean, which is dealt with at a film level...

[Segreto di Assisi](#) Xlibris Corporation

Bound by Distance takes its place among a growing body of scholarship the goal of which is to challenge the kind of thinking that reproduces the "West" as a stable and homogenous political and discursive entity. The Italian nation, with its peculiar process of formation, the continuous tensions between its own northern and southern regions, and its history of emigration, provides an important case for complicating and reassessing concepts of national, racial, economic, and cultural dominance. The author analyzes the interactive space of the history of Italian state formation, Italian subaltern literature, Italian emigrant writing, and the current situation of North African and Asian immigrants to Italy, in order to contest the "feigned homogeneity" of the Italian nation and to complicate and reassess concepts of national, racial, economic, and cultural dominance.
