When a shale gas exploration company uses bribery to gain planning permission to frack, its plans go badly wrong, leading to murder and suicide. When the location for drilling is revealed as being right next door to one of England's most picturesque villages and also near to endangered wildlife, it leads to violent protests. Local residents team up with anti-fracking campaigners and wildlife

preservationists to mount a massive protest which rapidly gains national momentum. Meanwhile, superintendent Bernie Greenwell and his C.I.D team are convinced that there is a link between the murder and the suicide. Then two dedicated anti-fracking campaigners uncover evidence which links the drilling company. A diverse cast of inter-woven characters, an extra-marital affair, bribery, corruption, suicide and murder all make this a compelling story that you won't be able to put down.

Ben Brooksby is a fifth-generation farmer from St Helens Plains in western Victoria. When he was younger, he struggled with anxiety and other mental health issues, as do so many others in rural

communities. A simple social media post helped him to turn things around. After he shared a photo on Instagram showing himself naked in a truck full of lentils, he received a huge response, with other farmers wanting to share their own photos - and their stories. As the Naked Farmer movement grew, Ben met people from all around the country who wanted to get naked for mental health. As they got their kits off, they also opened up about their struggles. This is a heartwarming, moving and candid collection of stories of the challenges our farmers are facing, and the way these communities are banding together in response. The author buys a long-dead vintage BMW sight-unseen, travels a thousand miles to where it sits, gets it running,

and drives it home. During the twelve-day trip, he finds that what began as a story of man-versus-machine turns into something else entirely--a story of the kindness of strangers, and how doors sometimes open exactly when you need them to. "Rob Siegel is a writer with the mind of a mechanic and a mechanic with the mind of a writer. He's also an old-school romantic of the best kind, and one of the few people who understands what car culture really means to the people invested in it--free of stereotype, cliché, or pat sentiments you've read a thousand times before. Like all of his writing, *Ran When Parked* focuses heavily on the why behind the hobby. It's a mix of casual, long-form blog entry; detailed how-to; and emotive confessional; most of all, he seems to

believe the world would be a better place if everyone else followed on his crazy path and devoted their free time to resurrecting old iron. He's right." -Sam Smith Editor at Large, Road & Track Car and Driver Veloce Publishing Ltd

Nominated as one of America's best-loved novels by PBS's The Great American Read. An American classic and great bestseller for over thirty years, *A Separate Peace* is timeless in its description of adolescence during a period when the entire country was losing its innocence to World War II. Set at a boys' boarding school in New England during the early years of World War II, *A Separate Peace* is a harrowing and luminous parable of the dark side of adolescence. Gene is a lonely, introverted intellectual. Phineas is a handsome, taunting, daredevil athlete. What happens between the two friends one summer, like the war itself, banishes

the innocence of these boys and their world.
