horror author, or a writer of weird fiction. I see him as more than that. Ligotti has transcended the trap of genre and writes a kind of languid, hallucinatory, fiction that is rarely matched by others. He is in the league of Poe and Lovecraft's better imitators. Noctuary: Amazon.co.uk: Ligotti, Thomas: 9781596064706: BooksLigotti is probably technically a better writer than Lovecraft, but in older collections like this, less abstract and philosophical than later, his advantages show less and he seems more like just a more modern and polished version of Lovecraftian legends on the underlying black chaos of the insensible universe.  Thomas Ligotti is
 a truly unusual author.
 He has a fascination
 with "weird fiction,"
 with the unknowable,
 the macabre. This is
 paired with a knack for
 eloquent word-poetry,
 intelligence and
 complexity, and a
 sense of the chillingly
 unusual. When I finish
 reading several Ligotti
 stories, I find that the
 world looks
 different.
