No natural resource issue has greater significance for the future of Texas than water. The state's demand for water for municipal, industrial, agricultural, and recreational uses continues to grow exponentially, while the supply from rivers, lakes, aquifers, and reservoirs is limited. To help Texans manage their water resources today and plan for future needs, one of Texas's top water experts has compiled this authoritative overview of water issues in Texas. Water in Texas covers all the major themes in water management and conservation: Living with a Limited Resource The Molecule that Moves Mountains A Texas Water Journey The Gulf Shores of Texas Who's Who in Water Texas Water Law: A Blend of Two Cultures Does Texas Have Enough Water? Planning for the Future What's in Your Water? How Much is Water Worth? Water is Our Legacy Illustrated with color photographs and maps, Water in Texas will be the essential resource for landowners, citizen activists, policymakers, and city planners.

Digital Sensations Nova Publishers
This is the most current textbook in teaching the basic concepts of abstract algebra. The author finds that there are many students who just memorise a theorem without having the ability to apply it to a given problem. Therefore, this is a hands-on manual, where many typical algebraic problems are provided for students to be able to apply the theorems and to actually practice the methods they have learned. Each chapter begins with a statement of a major result in Group and Ring Theory, followed by problems and solutions. Contents: Tools and Major Results of Groups; Problems in Group Theory; Tools and Major Results of Ring Theory; Problems in Ring Theory; Index.
Magic Nesting Doll John Wiley & Sons
You may be feeling stressed right now or would like to help someone that is feeling stressed. It has been proven that heart

attacks, strokes, high blood pressure, headaches, ulcers and many more medical conditions can all be brought on or made worse by cumulative stress. Stress has negative effects in all spheres of your life and can be fatal. The English Sisters, known as the Everyday Hypnotherapists, will take you on a relaxing journey in each of their easy-to-read short stories, which guide you into a comfortable stress-free state of mind in only three minutes. Each easy to read, short, hypnotherapeutic story is filled with metaphor and hypnotic language, which takes your mind on a mini break, providing relief from stressful thoughts. As you are reading, you will find that your heart rate decreases, your facial muscles begin to soften and your mind begins to enjoy the wonderful benefits of a stress-free state of mind. Stress Free in Three Minutes will help you form new responses, thoughts, attitudes and feelings. This will enable you to create healthy, empowering and happy thoughts in your mind.

Smart Home Automation with Linux and Raspberry Pi shows you how to automate your lights, curtains, music, and more, and control everything via a laptop or mobile phone. You'll learn how to use Linux, including Linux on Raspberry Pi, to control appliances and everything from kettles to curtains, including how to hack game consoles and even incorporate LEGO Mindstorms into your smart home schemes. You'll discover the practicalities on wiring a house in terms of both and power and networking, along with the selection and placement of servers. There are also explanations on handling communication to (and from) your computer with speech, SMS, email, and web. Finally, you'll see how your automated appliances can collaborate to become a smart home. Smart Home Automation with Linux was already an excellent resource for home automation, and in this second edition, Steven Goodwin will show you how a house can be fully controlled by its occupants, all

using open source software and even open source hardware like Raspberry Pi and Arduino.

The most up-to-date solutions, from non-chemical to recommended chemical controls, for more than 3,000 plant problems and North American home pests. [The Ortho Problem Solver](#) Saskatoon : Wordbooks

New Jersey transplant and sassy brunette Annisa Gobrowski has a problem-literally everyone at her Florida high school is blonde. No lack of golden highlights is going to stop Annisa from making the cheerleading squad. But after accidentally breaking the most popular girl in school's nose, and discovering the cheerleaders all hate her, she starts having second thoughts. Is it too much to ask to land a spot on the team, win the heart of her dreamy crush and make tons of new friends? Annisa is on the verge of giving up, but the cheerleader in her just won't let her quit. She may be a little different, but Sand Dune High had better watch out-this non-blonde is here to stay in this hilariously funny novel from Private author Kieran Scott.

Early in the 21st century, after the Great Recession, poet and young mother Maggie Roche is harassed by a lovely woman, Sriyanie, and a famous neuroscientist, David Elfield. She doesn't know it yet, but she is about to become history's first time traveler. When agents from the far future attempt to kill her, in baffled fury she slingshots herself into the 7th millennium. Instantly she's on the run from the Ull Lords and their virtual reality devotees. These superbeings are cyborged humans constructed to live forever, with the ambition to rule the universe. Maggie is having none of this. Encountering an earlier version of Sriyanie, her fated future role in the formation of the multiverse falls upon her shoulder like a thunderous lightningbolt. A Being at the end of time she calls the Something wages endless war with its foes, the Ull Lords. Torn from her beloved child and her own time, Maggie must choose whether to accept this alienating path into an alternative cosmic history fit for a poet and a free woman.

Originelles Notizbuch im Format 6x9 Zoll (ca. A5). Die 110 blanko Seiten bieten reichlich Platz für Notizen oder Tagebucheinträge! Dieses Notizheft hebt sich von anderen ab durch ein cooles Design auf dem Cover. Perfekt zum erstellen von Skizzen, zum sammeln von Ideen oder Planen von Events. Ein lustiger Terminplaner oder Terminkalender als Geschenk für Freunde und Familie zum Geburtstag, zu Weihnachten oder einfach zwischendurch.

I Was a Non-Blonde Cheerleader

Macmillan International Higher Education
The bestselling author of *The Best Exotic Marigold Hotel* and *Tulip Fever* is back with a warm, witty and wise novel about the unexpected twists that later life can bring... 'Nobody in the world knows our secret ... that I've ruined Bev's life, and she's ruined mine.' Petra's love life is a bit of a car-crash, even in her sixties. But then she falls for Jeremy, an old chum, visiting from abroad. The catch? Jeremy is her best friend's husband. And just as Petra is beginning to relax guiltily into her happy ever after, she finds herself catapulted to West Africa, and to Bev, her best friend who she's been betraying so spectacularly. It turns out that no matter where you are in the world, everyone has something to hide. Can Bev - can anyone - be trusted?

York Times Bestselling Author Lori Foster
Playing Doctor Attitude makes a huge difference in bed. It could be Axel Dean's motto. The sexy physician likes his women with sensual moxie, and Libby Preston definitely seems to fit that bill. There's that naughty grin. That hot bod. Her eager kisses and cheeky insults. Her. . . admitted virginity. Whoa. Okay, cue cold shower. Axel may not be an honorable man, but he has his limits. Except Libby won't take no for an answer. She's determined to have someone show her what she's been missing, and suddenly, Axel can't bear to think of Libby playing doctor with anyone else. . . USA Today Bestselling Author Erin McCarthy
The Lady of the Lake Pro baseball player Dylan Diaz is pretty sure he's going to hell. When you rescue a drowning woman from a lake your first thought should be, "Are you okay?" not, "Can I make mad, passionate love to you?" But the minute sputtering kindergarten teacher Violet Caruthers is on Dylan's boat, that's all he can think about. Maybe it's the potent combo of a nun's personality inside a stripper's body. Maybe it's the way she drives him crazy with desire and laughter. Or maybe, Dylan's finally found what's been missing in his life, and he's not about to let go. . .

OpenGL® ES™ is the industry's leading software interface and graphics library for rendering sophisticated 3D graphics on handheld and embedded devices. The newest version, OpenGL ES 3.0, makes it possible to create stunning visuals for new games and apps, without compromising device performance or battery life. In the OpenGL® ES™ 3.0 Programming Guide, Second Edition, the authors cover the entire API and Shading Language. They carefully introduce OpenGL ES 3.0 features such as shadow mapping, instancing, multiple render targets, uniform buffer objects, texture compression, program binaries, and transform feedback. Through detailed,

downloadable C-based code examples, you'll learn how to set up and program every aspect of the graphics pipeline. Step by step, you'll move from introductory techniques all the way to advanced per-pixel lighting and particle systems. Throughout, you'll find cutting-edge tips for optimizing performance, maximizing efficiency with both the API and hardware, and fully leveraging OpenGL ES 3.0 in a wide spectrum of applications. All code has been built and tested on iOS 7, Android 4.3, Windows (OpenGL ES 3.0 Emulation), and Ubuntu Linux, and the authors demonstrate how to build OpenGL ES code for each platform. Coverage includes EGL API: communicating with the native windowing system, choosing configurations, and creating rendering contexts and surfaces
Shaders: creating and attaching shader objects; compiling shaders; checking for compile errors; creating, linking, and querying program objects; and using source shaders and program binaries
OpenGL ES Shading Language: variables, types, constructors, structures, arrays, attributes, uniform blocks, I/O variables, precision qualifiers, and invariance
Geometry, vertices, and primitives: inputting geometry into the pipeline, and assembling it into primitives
2D/3D, Cubemap, Array texturing: creation, loading, and rendering; texture wrap modes, filtering, and formats; compressed textures, sampler objects, immutable textures, pixel unpack buffer objects, and mipmapping
Fragment shaders: multitexturing, fog, alpha test, and user clip planes
Fragment operations: scissor, stencil, and depth tests; multisampling, blending, and dithering
Framebuffer objects: rendering to offscreen surfaces for advanced effects
Advanced rendering: per-pixel lighting, environment mapping, particle systems, image post-processing, procedural textures, shadow mapping, terrain, and projective texturing
Sync objects and fences: synchronizing within host application and GPU execution
This edition of the book includes a color insert of the OpenGL ES 3.0 API and OpenGL ES Shading Language 3.0 Reference Cards created by Khronos. The reference cards contain a complete list of all of the functions in OpenGL ES 3.0 along with all of the types, operators, qualifiers, built-ins, and functions in the OpenGL ES Shading Language.

Ethical Dimensions in the Health

Professions - E-Book Penguin
Rules for the Nomenclature of Organic Chemistry: Section E: Stereochemistry (Recommendations 1974) deals with the main principles of stereochemistry. The

rules discussed in this section have two main objects, namely, to prescribe, for basic views, terms that may provide a common language in all aspects of stereochemistry; and to define the ways in which these terms may be incorporated into the names of individual compounds. This book discusses the steric structure of a compound, which is denoted by an affix or affixes to the name that does not prescribe the stereochemistry. This text explains that isomers are termed stereoisomers when they differ only in the arrangement of the atoms in space. This book explains as well that the terms relative stereochemistry and relative configuration are used to describe the positions of substituents on different atoms in a molecule relative to one another. This book is a valuable resource for organic chemists.

A family struggles for redemption after a funeral brings dark secrets to the surface in this novel from the Booker

Prize-winning author of *The Sea, The Sea*. For the first time in years, Edmund Narraway has returned to his childhood home—for the funeral of his mother. The visit rekindles feelings of affection and nostalgia—but also triggers a resurgence of the tensions that caused him to leave in the first place. As Edmund once again becomes entangled in his family’s web of corrosive secrets, his homecoming tips a precariously balanced dynamic into sudden chaos, in this compelling story of reunion and coming apart from Iris Murdoch, “one of the most significant novelists of her generation” (*The Guardian*).

Emily I'm back in New York, ready to start my brand new life with Logan. Things are still up in the air between us, and it has been three months since I've even talked to him. But there's one thing I'm certain of -- I can't live without him. Logan I need her like I need air. But now she's back, and her dad and her ex-boyfriend are conspiring to keep us apart. We can do this, though. Can't we? We can make this work? We have to, because I can't imagine my life without her.
