The Secrets of Gaslight Lane: The Gower Street Detective: Book 4 (Gower Street Detectives) BookRix

From the antiquity of Homer to yesterday's Naked Lunch, writers have found inspiration, and readers have lost themselves, in a world of the imagination tinged and oftentimes transformed by drugs. The age-old association of literature and drugs receives its first comprehensive treatment in this far-reaching work. Drawing on history, science, biography, literary analysis, and ethnography, Marcus Boon shows that the concept of drugs is fundamentally interdisciplinary, and reveals how different sets of connections between disciplines configure each drug's unique history. In chapters on opiates, anesthetics, cannabis, stimulants, and psychedelics, Boon traces the history of the relationship between writers and specific drugs, and between these drugs and literary and philosophical traditions. With reference to the usual suspects from De Quincey to Freud to Irvine Welsh and with revelations about others such as Milton, Voltaire, Thoreau, and Sartre, *The Road of Excess* provides a novel and persuasive characterization of the "effects" of each class of drug—linking narcotic addiction to Gnostic spirituality, stimulant use to writing machines, anesthesia to transcendental philosophy, and psychedelics to the problem of the imaginary itself. Creating a vast network of texts, personalities, and chemicals, the book reveals the ways in which minute shifts among these elements have resulted in "drugs" and "literature" as we conceive of them today.

First published in 1992, this book focuses on the Muslim community and how it has developed in North America. Divided into eight sections, it traces the history of the Muslim community in North America from the nineteenth century to the end of the twentieth-century and examines different aspects of the community such as Sectarian Movements, Islam in the African American community and points of contact between Christian and Islamic communities. The text includes a number of bibliographies to aid further study and closes with a helpful directory of Muslim organizations and centers in North America. This book will be of particular interest to those studying Islam and Religion in North America.

The Mystery of the Danube Harvard University Press

"This volume appraises distinguished black poets whose careers began to flower between the Harlem Renaissance of the 1920s, a period of militant integration, and the Black Arts Movement of the 1960s, a decade of militant separatism. Most of these writers were children of the Renaissance, then young adults during World War II, and finally middle-aged artists during the Korean conflict. The poets examined include Melvin Tolson, Robert Hayden, Dudley Randall, Margaret Esse Danner, Margaret Walker, and Gwendolyn Brooks. The interpretive focus shifts from characterization and stylistic evolution to dialectic voices, prophecy, attitude toward the opposite sex, and the theme of recreation. As editor Miller notes, the poets balance mimetic and apocalyptic theories of literature. In Freudian terms they play id against superego; in Derridean terms they reconstruct ethical and phenomenological values aesthetically. Through ballad, sonnet, and free verse, they are the poets of memory, protest, tradition, and cultural celebration"--Book jacket.

Gurdjieff was wrong but his teaching works...is the story of one man's remarkable journey of self-discovery which dispels the Gurdjieffian premise that man is not born with an immortal soul. With his own quest, Orest Stocco illustrates that we are all born with a spark of divine consciousness; but not until we take evolution into our own hands, which Gurdjieff's teaching helped him to do, will we realize our true self.

Black American Poets Between Worlds, 1940-1960 Routledge

Emotions lie at our very core as human beings. How we process and grapple with our emotions, how and what we emote, and how we respond to the

emotions of others, constitute the essence of our social universe. In a very real sense, we exist only through the prism of our emotions. And yet the profound effect of human emotion on history, politics, religion, and culture, remains underexamined. While the influence of emotion in such realms as American foreign policy has been well-documented, other emotional aspects of American history have escaped notice. What role, for instance, does emotion have in the practice of African American religion? How do shame and self-hatred influence American conceptions of identity? How does our emotional life change as we age? To what degree is American consumerism driven by basic human emotion? With this landmark anthology, historians Peter N. Stearns and Jan Lewis provide a road map of the American emotional landscape. From the emotional world of working-class Massachusetts to the prayers of evangelical and pentecostal women and the gendered nature of black rage, these essays provide a multicultural snapshot of the unique nature, and evolution, of American emotions.

The Shadows of Heaven Lulu.com

Complete and unabridged, here is the unparalleled landmark of occult philosophy and lost history that reshaped the modern spiritual mindset and continues to fascinate readers today. There is perhaps no greater enigma in modern Western literature than *The Secret Doctrine*. The controversial Russian noblewoman Madame Helena Petrovna Blavatsky told the world that the book restored humanity's lost history and destiny. Its insights, she said, had been gleaned from long-secret books of wisdom and her tutelage under mahatmas, or great souls: adepts from the East who exposed the seeker to their esoteric teaching. To read *The Secret Doctrine* is to enter a mysterious world of ancient cosmology and spiritual-scientific insights, which tell of humanity's unthinkable ancient past and its burgeoning evolution into a new, more refined existence. For the first time, Blavatsky's encyclopedia arcana is available in a reset and redesigned single-volume edition, complete and unabridged. Its truths and challenges are available to the intrepid reader, who may find yet-unknown insights within its pages.

This Essay follows Gurdjieff's challenge: "Take the understanding of the East and the knowledge of the West - and then seek!" "Enneagram & Transformation" is dedicated to the knowledge/science of the West, by examining and describing the systemic and processual foundations of the Enneagram. The result is the acknowledgement of the Enneagram as a universal Metamodel whose rules can be applied to analyze the most complex issues. The explanations presented in "Enneagram & Transformation" confirm what Gurdjieff taught his students in St. Petersburg: "Generally speaking, one must understand that the Enneagram is a universal symbol. All knowledge can be summarized in the Enneagram and interpreted with the help of the Enneagram. And so you can say that you only know, or understand, what you can insert into the Enneagram. What you can not fit into the Enneagram is not understood. "An additional way for further model creation is the extended form of the Enneagram based on relevant Gurdjieff's quotes - the EN-Cosmogram©.

The press called him a "real-life James Bond." Fidel Castro called him "the most dangerous CIA agent." History remembers him as a Watergate burglar, yet the Watergate break-in was his least perilous mission. Frank Sturgis--using more than 30 aliases and code names--trained guerilla armies in 12 countries on three continents and spearheaded assassination plots to overthrow foreign governments including those of Cuba, Panama, Guatemala, the Dominican Republic, and Haiti. Warrior follows the shocking, often unbelievable adventures of Sturgis, brought to life by his nephew, Jim Hunt, who lived with Sturgis, and his co-writer, Bob Risch. Also included are never-before-seen personal photos of Sturgis and his compatriots. Frank Sturgis was well-versed in a life of shadows: familiar to world leaders and underground kingpins, to spies and couterspies...Warrior is his story.

Volume 13 provides valuable examples of the very type of clinically grounded theorizing that represents progress in self psychology. The opening section of clinical papers encompasses compensatory structures, facilitating responsiveness, repressed memories, mature selfobject experience, shame in the analyst, and the resolution of intersubjective impasses. Two self-psychologically informed approaches to supervision are followed by a section of contemporary explorations of sexuality. Contributions to therapy address transference and countertransference issues in drama therapy, an intersubjective approach to conjoint family therapy, and the subjective worlds of profound abuse survivors. A concluding section of studies in applied self psychology round out this broad and illuminating survey of the field.

Foreign Relations of the United States Jonathan Pile

A great deal of mystery surrounds G.I. Gurdjieff and "The Work." Today, many on the path of selfexploration find themselves drawn to the symbolism of the enneagram, and to Gurdjieff's other teachings. Gurdjieff was undeniably charismatic many famous and influential people lived in his "shadow," accepting his guidance while changing and transforming their lives. *Shadows of Heaven* focuses on the relationship between Gurdjieff and the poetnovelist Nathan Jean Toomer, from 1924 until Gurdjieff's death in 1949, as well as each man's relationship with Edith Annesley Taylor and her son Paul, the author of this book. Caught in the middle of this tense triad of interests was the English criticpublisher A.R. Orage, who was close to all three parties, and whose wife, Jessie, was Edith's best friend. Paul Taylor's unique life experience has made it possible for him to combine his mother's memoir's conversations between Toomer and Gurdjieff, and entries from Jessie Orage's diary into this fascinating book. It is probably the first to reveal something of Gurdjieff's "love life" with the mothers of his children. Several new descriptions of Gurdjieff's voyages with his pupils reveal

aspects of Gurdjieff's character not documented elsewhere. Excerpts from Jessie Orage's diaries testify to the magnetic attraction Gurdjieff exercised over those he felt were vital to the dissemination of his ideas. With 16 pages of neverbefore published photographs, this book presents a fresh new picture of Gurdjieff and his teaching, adding to his legend a tangible humanity to which we can all relate.

In the late 1980s, the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement, such as channeling and the use of crystals for healing, briefly piqued the public's curiosity. While the movement was at its height, scholars of religion generally sneered at what was perceived to be a daffy, shallow craze, and ignored it as a subject of serious study. Professor James R. Lewis was among the first to examine this growing religious phenomenon scientifically. In previous books, he has investigated the New Age as the most visible manifestation of a significant spiritual subculture, the roots of which reach back to Theosophy, Spiritualism, and New Thought. The present collection pursues this theme, bringing together some of the best recent scholarship on new religions. Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality. Reflecting the emergence of this new denominational structure, the core chapters of this book focus on specific groups. Other chapters examine the movement's historical roots. A unique feature of Dr. Lewis's work is his inclusion of extensive selections from New Age literature, thus allowing readers to experience firsthand the unusual perspectives of the various groups. This is a fascinating examination of a significant and persistent religious and social phenomenon. James R. Lewis (Stevens Point, WI), a world-recognized authority on nontraditional religions, teaches religious studies at the University of Wisconsin, and is the author or editor of over 20 books, including *Odd Gods: New Religions and the Cult Controversy* and *Doomsday Prophecies: A Complete Guide to the End of the World*.

The new novel in the atmospheric Gower Street Detective series introduces a chilling locked room mystery to Detective Sidney Grice and his precocious ward March Middleton. London, 1883. All is quiet at 125 Gower Street. Private detective Sidney Grice is studying up on the anatomical structure of human hair whilst his ward, March Middleton, sneaks upstairs for her eighth secret cigarette of the day. The household is, perhaps, too quiet. So, when a beautiful young woman turns up at the door, imploring London's foremost private detective to solve the mystery of her father's murder, Grice can barely disguise his glee. Mr. Nathan Garstang was found slaughtered in his bed, but there is no trace of a weapon or intruder. A classic locked-room case. But what piques Grice's interest is the crime's link to one of London's most notorious unsolved murders. Ten years ago, Nathan's uncle aunt and servants were murdered in their sleep in the very same house. Now, it seems, the Garstang murderer is back...
