Spring Boot in Action

This blistering  
novel—from the  
bestselling, Pulitzer  
Prize-winning author of  
The Road—returns to the  
Texas-Mexico border,  
setting of the famed  
Border Trilogy. The time is  
our own, when rustlers  
have given way to drug-  
runners and small towns  
have become free-fire  
zones. One day, a good  
old boy named Llewellyn  
Moss finds a pickup truck  
surrounded by a  
bodyguard of dead men. A  
load of heroin and two  
million dollars in cash are  
still in the back. When  
Moss takes the money, he  
sets off a chain reaction of  
catastrophic violence that  
not even the law—in the  
person of aging,  
disillusioned Sheriff  
Bell—can contain. As Moss  
tries to evade his  
pursuers—in particular a  
mysterious mastermind  
who flips coins for human

lives—McCarthy  
simultaneously strips  
down the American crime  
novel and broadens its  
concerns to encompass  
themes as ancient as the  
Bible and as bloodily  
contemporary as this  
morning's headlines. No
