The Lost Realms Boyds Mills Press
From bestselling author Gabor Maté, the essential resource for understanding the roots and behaviors of addiction--now with an added introduction by the author. Based on Gabor Maté's two decades of experience as a medical doctor and his groundbreaking work with the severely addicted on Vancouver's skid row, In the Realm of Hungry Ghosts radically reenvisions this much misunderstood field by taking a holistic approach. Dr. Maté presents addiction not as a discrete

phenomenon confined to an unfortunate or weak-willed few, but as a continuum that runs throughout (and perhaps underpins) our society; not a medical "condition" distinct from the lives it affects, rather the result of a complex interplay among personal history, emotional, and neurological development, brain chemistry, and the drugs (and behaviors) of addiction. Simplifying a wide array of brain and addiction research findings from around the globe, the book avoids glib self-help remedies, instead promoting a thorough and compassionate self-understanding as the first key to

healing and wellness. In the Realm of Hungry Ghosts argues persuasively against contemporary health, social, and criminal justice policies toward addiction and those impacted by it. The mix of personal stories—including the author's candid discussion of his own "high-status" addictive tendencies—and science with positive solutions makes the book equally useful for lay readers and professionals. *Wild Magic; Wolf-Speaker; Emperor Mage; The Realms of the Gods Wizards of the Coast*

The Earth Chronicles series is based on the premise that mythology is not fanciful but the repository of ancient memories; that the Bible ought to be read literally as a historic/scientific document; and that ancient civilizations--older and greater than assumed--were the product of knowledge brought to Earth by the Anunnaki, "Those Who from Heaven to Earth Came." The 12th Planet, the first book of the series, presents ancient evidence for the existence of an additional

planet in the Solar System: the home planet of the Anunnaki. In confirmation of this evidence, recent data from unmanned spacecraft has led astronomers to actively search for what is being called "Planet X." The subsequent volume, *The Stairway to Heaven*, traces man's unending search for immortality to a spaceport in the Sinai Peninsula and to the Giza pyramids, which had served as landing beacons for it--refuting the notion that these pyramids were built by human pharaohs. Recently, records by an eye witness to a forgery of an inscription by the pharaoh Khufu inside the Great Pyramid corroborated the book's conclusions. *The Wars of Gods and Men*, recounting events closer to our times, concludes that the Sinai spaceport was destroyed 4,000 years ago with nuclear weapons. Photographs of Earth from space clearly show evidence of such an explosion. Such gratifying corroboration of audacious conclusions has been even swifter for *The Lost Realms*. In the relatively short interval between the completion of the manuscript and its publication, archaeologists, linguists, and other scientists have offered a "coastal theory" in lieu of the "frozen trekking" one

to account for man's arrival in the Americas--in ships, as this volume has concluded. These experts have "suddenly discovered 2,000 years of missing civilization" in the words of a Yale University scholar--confirming this book's conclusion--and are now linking the beginnings of such civilizations to those of the Old World, as Sumerian texts and biblical verses. For the first time, the entire Earth Chronicles series is now available in a hardcover collector's edition. [Realm of the Goddess](#) *Wizards of the Coast*
