One of the four great tragedies—alongside Hamlet, King Lear, and Macbeth—Othello is among the darkest of Shakespeare's plays, illumining the shadows of the gloomiest recesses of the human psyche and serving as a damning indictment of the world in which it was written. A cautionary tale of the destructiveness of sin and the ruinous consequences of bad philosophy, Othello seems to express Shakespeare's rage at the cynicism and brutality of the age in which he lived. From the Machiavellian menace of Iago to the blind and prideful jealousy of Othello, this classic of world literature shows us the shadow falling over a society that has turned its back on the light and life of virtue. The Ignatius Critical Editions present a tradition-oriented approach to reading Western classics. While many critical editions view literature through the lens of modernism and post-modernism, this series offers critical examinations informed by the Judeo-

Christian heritage as passed down through the ages—the same heritage that provided the crucible in which the great authors formed these classic works. Edited by acclaimed literary biographer Joseph Pearce, the Ignatius Critical Editions provide essays and footnotes that analyze works in light of the Western tradition, allowing the reader to meet the authors in their element. The series is ideal for academic study and for anyone wishing to understand the great literary works of Western civilization in the company of some of the finest literature professors alive today.

Finding Your Way with Your Baby explores the emotional experience of the baby in the first year and that of the mother, father and other significant adults. This updated edition is informed by latest research in neuroscience, psychoanalysis and infant observation and decades of clinical experience. It also includes important new findings about how the mother's brain undergoes massive restructuring during the transition to

parenthood, a phenomenon that has been named 'matrescence.' The authors engage with the difficult emotional experiences that are often glossed over in parenting books - such as bonding, ambivalence about the baby, depression and the emotional turmoil of being a new parent. Acknowledgement and understanding of this darker side of family life offer a sense of relief that can allow parents to harness the power of knowing, owning and sharing feelings to transform situations and break negative cycles and old ways of relating. With real-life examples, the book remains a helpful resource for parents, as well as professionals interested in ideas from psychoanalytic clinical practice including health visitors, midwives, social workers, general practitioners, paediatricians and childcare workers.

The Tempest is a play by William Shakespeare, believed to have been written in 1610–11, and probably the last play that Shakespeare wrote alone. It is set on a remote island, where Prospero, the rightful Duke of Milan, plots to restore his daughter Miranda to her rightful place using illusion and skillful manipulation. He conjures up a storm, the eponymous tempest, to lure his usurping brother Antonio and the complicit King Alonso of Naples to the island. There, his machinations bring about the revelation of Antonio's lowly nature, the redemption of the King, and the marriage of Miranda to Alonso's son, Ferdinand. Life of William Shakespeare is a biography of William Shakespeare by

the eminent critic Sidney Lee. This book was one of the first major biographies of the Bard of Avon. Shakespeare's Comedy of the Tempest BRILL

This book visits the 'Thing' in its various manifestations as an unnameable monster in literature and film, reinforcing the idea

that the very essence of the monster is its excess and its indeterminacy. Tied primarily to the artistic modes of the gothic, science fiction, and horror, the unnameable monster retains a persistent presence in literary forms as a reminder of the sublime object that exceeds our worst fears. Beville examines various representations of this elusive monster and argues that we must look at the monster, rather than through it, at ourselves. As such, this book responds to the obsessive manner in which the monsters of literature and culture are 'managed' in processes of classification and in claims that they serve a social function by embodying all that is horrible in the human imagination. The book primarily considers literature from the Romantic period to the present, and film that leans toward postmodernism.

Incorporating disciplines such as cultural theory, film theory, literary criticism, and continental philosophy, it focuses on that most difficult but interesting quality of the monster, its unnameability, in order to transform and accelerate current readings of not only the monsters of literature and film, but also those that are the focus of contemporary theoretical discussion.

Professor Cedric Watts discusses 25 puzzles presented by the works of Shakespeare. For instance: The Sonnets - autobiographical or fictional? What is the plot of the long-lost *Love's Labour's Won*? What are the 'glass eyes' in *King Lear*? Prospero's epilogue: it is really Shakespeare's farewell? Repeatedly, these challenging discussions reveal and resolve problematic features of the works, and demonstrate the linkage of minor and major concerns. Cedric Watts, Emeritus Professor of English at Sussex University, was co-author (with John Sutherland) of the acclaimed book, *Henry V: War Criminal?* and
